

LESSON #10 EVALUATE - LAURA

LESSON OVERVIEW:

Students will finish assessment task from prior lesson. Students will set up and participate in a gallery walk of their assessment pieces. Students will complete self and peer-assessments of the tasks.

LESSON GOALS:

Students will be able to successfully express their knowledge surrounding a key question of the unit 'how technology aids Australia's connection with countries within Asia?'

VICTORIAN CURRICULUM LINKS:

VCGGK098

VCGGK093

VCDTCD031

LESSON RESOURCES:

Personal device

Resource manuals that are required have been covered in previous sections

LESSON OUTLINE:

Students will continue to work with their groups to finalize their presentations, ensuring they are referring back to the rubric to consider all aspects that need to be included.

In the final stages of the lesson, students need to use the rubric to complete a self-assessment of the work item they have created.

Students will upload their task to Edmodo, so classmates can complete a peer-assessment as a comment to the post.

- The teacher maybe needed to require supporting assist students in the uploading if the task to Edmodo.

ASSESSMENT OPPORTUNITY:

This lesson is the final lesson in this unit where student are completing their final summative assessment piece. Students are accumulating their learning and knowledge from this unit into a technology representation for the teacher to make a judgment about how students can consider the key questions of the unit.
